

Speech Intelligibility Rating Scale

SPEECH INTELLIGIBILITY RATING SCALE

This Speech Intelligibility Rating Scale is designed to help speech-language pathologists, educators, and caregivers assess the clarity of speech in individuals. It provides a systematic method to evaluate and document speech intelligibility levels, facilitating targeted interventions and monitoring progress over time.

Individual's Name: _____ Date of Assessment: _____ dd / mm / yyyy

Assessor's Name: _____

Rating Selected

- ☐ Completely Intelligible
- ☐ Mostly Intelligible
- ☐ Understandable with Effort
- ☐ Frequently Unintelligible
- ☐ Completely Unintelligible

Notes on Speech Clarity

Recommended Interventions (if any)
